

# Performance Dashboard

Gain instant access to meaningful data with Accelerate's **Performance Dashboard**! Administrators, teachers, and observers have access to a streamlined, summarized view of student progress and performance. The **Performance Dashboard** provides clear, actionable insights without the need to dig through multiple reports. Users can quickly identify trends in student progress, pacing, and performance, making it easy to see which students are thriving and who may need additional support.

Whether overseeing an entire school, managing a class, or supporting individual learners, the dashboard delivers the right information at the right time — empowering educators to intervene sooner, guide students more effectively, and celebrate success with confidence.

In addition to high-level analytics, users can drill down into individual student views, offering detailed snapshots that are also printable for sharing with students and their families.
